EARLY MORNING OPTION: 8:00 AM - 9:00 AM

Early Fun & Games Daniel Lipton

Enjoy the start of the day with games and activities that allow students to get going at their own pace.

CLASS OPTIONS: 9:00AM-12:00PM

Puppet Party Puppet Showplace Theater

Want to create crafts that move and groove? Enjoy the world of puppetry, as we learn how to build imaginary characters and bring them to life on stage! Each day features a new project, story, and lots of creative fun.

Video Production Basics Brookline Interactive Group

Get a crash course in all elements of video production. Learn how to operate a camera, film footage both in a studio and out in the field, and operate the control room for filming a television show.

CLASS OPTIONS: 9:00AM-4:30PM

Moving Machines Dani Schechner

Levers and propulsion, oh my! Build machines that move as you experiment, tinker, test, investigate, and create.

Stuffed Animals Christina Wynveen

Design, cut, sew, glue, and embellish in this make your own stuffed animal class. Make a one of a kind animal to take home and hug.

Rock'n Roll Yoga Workout Rebecca Arnoldi

Stretch! Breathe! Move! Combine yoga with cardio, calisthenics, and a rocking beat for a full body workout.

Hat and Mask Design Christina Wynveen

Wearable art is so much fun. Brainstorm ideas, sketch thoughts, map out designs, and create lavishly detailed hats and masks to wear home.

Cooking Creations TBA

We'll read recipes and learn our way around the kitchen as we cook up savory creations such as, Belgian waffles, homemade hummus, pizza pinwheels, and mac and cheese cupcakes.

Construction Inventors Daniel Lipton

Design a marble slide, create popcorn rock, build towers! Hands-on construction using an assortment of building materials will inspire our inner engineer.

Computer Lab: Using Scratch TBA

Program your own games and scenarios using Scratch, a computer program developed at MIT that makes it easy to arrange and snap together Scratch blocks of code to create moving characters, simulations, and games.

Kids Coding TBA

Increase your technical proficiency and confidence. Learn basic code through fun and simple exercises that feel like games. We'll concentrate on html and designing web pages.

Noontime Quiet Time or Swim Mark Beshansky

After eating their bagged lunches, students may play board games, draw, or read quietly. Children aged 7 and older may opt to swim in the Tappan Street Pool.

Soccer & Gym Games Mark Beshansky

Players of all levels will enjoy soccer and gym games that offer friendly competition and team building challenges, and focus on problem solving and creative thinking.

Story Arts Daniel Lipton

We'll read favorite books and then delve into skits, art projects, and games relating to the stories. We'll also practice our storytelling skills by acting out scenes.

Creature Collages Christina Wynveen

Working with drawing tools and mixed media on paper, explore and create portraits of animals or friends using images, colors, or small objects.

Acting Games Daniel Lipton

Through improv and acting games, unlock your spontaneity, comedy skills, and imagination. We'll re-create scenes from popular literature, tv shows, or movies, and invent short skits where the plots twist and turn.

A Handful of Clay Dani Schechner

Enjoy the wonders of clay in a pottery studio. Learn basic hand-building techniques and how to sculpt ceramic creations.

Baker's Bread TBA

We'll have fun measuring, mixing, and whipping up yummy breads treats and strawberry shortcakes. We'll spread our breads with homemade butter and jam.

Incredible Insects Rebecca Arnoldi

Using examples of nature's most unique animals and environments as inspiration, we'll build landscapes filled with creatures that might be mistaken for science fiction illustration.

Artist Inspired Christina Wynveen

Work through the steps of creating a masterpiece inspired by media artists like Kadinsky, Dali, and Klee using drawing pencils, paints, wax, and cut paper.

CLASS OPTION: 1:30PM-4:30PM

Parkour Parkour Generations Staff

Get fit and move safely through physical education exercises, games, challenges, and technical drills that will improve your balance, coordination, and strength.

EXTENDED DAY OPTION: 4:30-6:00 PM

Extended Day Mark Beshansky

Students will have a variety of choices that may include art projects, board games, stories, drawing, or quiet time.
